

AFIX/MOBI for Health Care Providers

Please call the Butler County Health Department to schedule a visit from our Vaccination AFIX/MOBI Specialists (513-863-1770).

Assessment, Feedback, Incentives, and Exchange (AFIX) AFIX is a quality improvement strategy to raise immunization coverage levels and improve standards of practice at the provider level. The program involves: [Assessment](#) of the healthcare provider's vaccination coverage levels and immunization practices, [Feedback](#) of results to the provider along with recommended strategies to improve coverage levels, [Incentives](#) to recognize and reward improved performance, and [eXchange](#) of healthcare information and resources necessary to facilitate improvement.

The AFIX approach presents an excellent educational program, encourages private and public partnerships, and increases awareness among immunization providers.

MOBI Maximizing Office Based Immunization (MOBI) is a free, statewide, provider immunization education and training program developed just for health-care providers. This continuing education program, which trains practices in techniques to improve immunization rates, is offered through the Ohio Chapter, American Academy of Pediatrics, and funded by the Ohio Department of Health with technical assistance from the National Immunization Program, Centers for Disease Control & Prevention.

MOBI is a one hour in-office continuing education quality improvement program provided by trained vaccine experts. Offices targeted include pediatric and family medicine practices throughout Ohio. Ohio AAP annually trains more than 100 experts to conduct these programs. MOBI aims to raise immunization rates among Ohio's children by teaching physicians and their entire staff evidence-based strategies to overcome barriers to immunization.
