Board of County Commissioners
GREG JOLIVETTE, PRESIDENT
CHARLES FURMON, VICE-PRESIDENT
DONALD DIXON, MEMBER

Ohio Department of Youth Services
THOMAS J. STICKRATH, DIRECTOR

In compliance with Section 2151.18 of the Ohio Revised Code, we submit herewith the Annual Report of the Court of Common Pleas, Juvenile Division, Butler County, Ohio, covering the calendar year of 2007. This report reflects the number and kinds of cases that have come before it, and other data pertaining to the work of the Court and of interest to you and the general public.

Respectfully submitted,

David J. Niehaus
Administrative Judge

JUVENILE COURT OVERVIEW

Over the past several years, the Butler County Juvenile Court has been a very busy court. Hampered by a lack of space and personnel, the Juvenile Court has frequently struggled to handle its caseload. The year 2007 was no exception. Over the past year, 20,787 filings (complaints, petitions, motions, and objections) were filed with the Butler County Juvenile Court. Those filings led to 31,295 hearings (an average of 125 per business day). In addition to this, in an effort to alleviate the docket issues caused by that caseload, the Juvenile Court, and with the cooperation of the Butler County Domestic Relations Court, assigned 771 cases to that court. Those 771 cases led to 4,728 hearings conducted by the Domestic Relations Court for the Juvenile Court.

The problems presented by the court's caseload have been exacerbated by changes in our society. As more and more people have chosen to have children out of wedlock, they have found themselves involved with Juvenile Court. This involvement occurs when issues traditionally heard in divorce proceedings by the Domestic Relations Court; such as custody, companionship rights, and child support; arise.

On another note, 2007 was the first full year of operation of the Family Drug Court. The Family Drug Court was initiated in order to provide parents who have lost custody of their children due to substance abuse, the opportunity to have immediate access to intensive treatment. That treatment is actively and continuously monitored by the court and treatment professionals to assure that progress in treatment is encouraged and facilitated and that lapses in treatment are met with appropriate court sanctions. As a result of the efforts made in this program, 20 children were placed in permanent homes in 2007.

A large part of the caseload of the Juvenile Court relates to delinquent children. In that regard, the Butler County Juvenile Rehabilitation Center has proven to be a valuable asset. The Rehabilitation Center was accredited by the American Correctional Association in January of 2008 after an audit in September of 2007 found the Center to be in 100% compliance with ACA standards. 74% of the juveniles placed in the Rehabilitation Center completed the program successfully in 2007.

Unfortunately, the Butler County Juvenile Detention Center continued to struggle with capacity issues in 2007. Designed as a 66 bed facility, its daily population averaged 74 in 2007. This lack of capacity does negatively impact the ability of the court to use detention as a deterrent in some delinquency cases.

As one can see from the foregoing, the Butler County Juvenile Court faces significant challenges. As our county continues to grow, as our society continues to change, and as traditional sources of revenue shrink, the challenges may appear to be formidable. Nonetheless, we remain committed to our goal to provide meaningful and useful resources to the community regarding issues related to our most valuable natural resource, our children.

JUVENILE DATA TOTALS

Delinquent/Unruly

Cases Filed	4266
Juveniles	2642
Offenses	6764
Offenses Against Persons	961
Offenses Against Property	1002

JUVENILE PROBATION DEPARTMENT OVERVIEW

The Butler County Juvenile Probation Department conducts investigations at the direction of the Juvenile Court Judges and presents the findings of the investigations to the Judges. In addition, the Juvenile Probation Department provides supervision for youth involved with the Juvenile Court.

The Balanced Approach Philosophy is the framework that guides the Juvenile Probation Department. This philosophy emphasizes holding youth accountable for their actions, keeping the community safe from the individual and referring youth to resources that increase the youth's ability to be successful in the community. The Butler County Juvenile Probation Department implements this framework by:

1. Enforcing the orders of the court (Accountability) – Probation Officers will recommend sanctions such as restitution to victims, driver license suspensions and community service. When the court orders restitution and/or community service, these orders can be met through the Butler County Juvenile Court Work Program. The Butler County Juvenile Court Work Program consists of three Work Program Officers that supervise youth at nonprofit work sites within the community, which allows the youth to fulfill the order of the court and to give back to the community. If the youth owes restitution to a victim, the community service hours worked can be converted to money that goes directly to the victim.
2. Referring youth to resources to improve their chances to be successful within the community – Probation Officers link youth to resources within the community that will address the behaviors that have brought the youth to court. A continuum of substance abuse treatment services, from education to inpatient services, is available for those with substance abuse issues. Other resources, Multi-systemic Therapy and Functional Family Therapy, are designed to address the delinquent/unruly behavior of youth. Both of these services are nontraditional therapies that work with the youth and the youth's family to address problem behavior and have research that supports the effectiveness of working with delinquent/unruly youth.

3. Supervising youth who remain in the community (Public Safety) – If court-involved youth are a risk to the community, the youth must be removed from the community, however if court-involved youth are in the community, the Probation Department must supervise the youth. Probation Officers have face to face contact with the youth at their home and at school. The Probation Department also utilizes House Arrest, Home Incarceration, Electronic Monitoring and Curfew to restrict the juveniles' movement within the community. Probation Officers go to homes in the evening to verify that the youth are complying with the restrictions.

The Butler County Juvenile Probation Department has three levels of Supervision; Diversion Supervision, Court Supervision and Probation Supervision.

Diversion Supervision is provided to youth who are referred to the court for the first time for committing minor offenses and are willing to take responsibility for their actions. These youth participate in the Diversion Program and have their cases heard unofficially. This is an opportunity for the youth to learn from their mistakes while avoiding an official juvenile criminal record. A Diversion Supervisor, Diversion Officer, and at times, interns from social work fields and other related courses of study, supervise those youth, ensuring that they are held accountable for their actions. In 2007, 706 youth were supervised through Diversion Supervision.

Court Supervision is provided to youth who are found to be delinquent or unruly and are not in need of the structure provided by Probation Supervision. Three Compliance Probation Officers supervise these youth to ensure that the youth fulfill the orders of the court. In 2007, 2,528 youth were supervised through Court Supervision.

Probation Supervision is provided to youth who are found to be serious, high risk offenders and/or chronic offenders. Fifteen Field Probation Officers supervise these youth, not only to ensure that they comply with the orders of the court, but also that the youth show improvement in their functioning at home, school and community. In 2007, 1,290 youth were supervised through Probation Supervision.

In 2007, The Butler County Juvenile Probation Department continued to look at ways to improve their service to the community. In this year, Probation focused attention on juvenile sexual offenses. Probation recognized that juvenile sexual offenders present unique and specific issues. These offenders need specific treatment and more intensive supervision. In 2007, Probation was able to address this identified need by creating a Sexual Offender Unit. This unit is responsible for the case management of all adjudicated juvenile sexual offenders. The Probation Department designated two Field Probation Officers and one Probation Supervisor to complete the Sex Offender Specialist Certification Program provided by Ohio University. These Probation Officers have lower caseloads in order to provide more intensive case management to these sexual offenders.

INSTITUTIONAL PLACEMENTS

Whenever a youth commits a felony offense, the probation department considers some form of incarceration. Probation will look at the seriousness of the offense, past criminal history and past compliance with probation as factors to determine what form of incarceration to recommend. Most felony youth are recommended for the Juvenile Rehabilitation Center because they receive treatment locally and the parent/guardian participate in that treatment. If the youth is unsuccessful in that program or the juvenile is deemed inappropriate for that setting, the youth is recommended for commitment to the Ohio Department of Youth Services (juvenile prison system). The other option for the most serious offenders is to recommend that the youth be transferred to the adult court. The Probation Department will look at the age of the offender, the seriousness of the offense(s), and the past efforts to address the behavior as factors to determine whether to recommend that the youth be bound over to the adult court.

JUVENILE DETENTION CENTER OVERVIEW

The Butler County Juvenile Detention Center is a secure 66 bed, short-term holding facility for juveniles who have been charged with offenses and are in need of secure placement pending case action by the Butler County Juvenile Court. The facility's mission is to maintain the care, welfare, safety and security of the residents placed in the facility's care. The facility houses up to 66 residents, utilizing a classification system to separate youth based on age, gender, and seriousness of offense.

In 2007, 1530 juveniles were admitted into the facility as compared to 1570 in the previous year. The average daily population in the facility significantly increased, going from an average daily population of 67 in 2006 to 74 in 2007. This increase was related to the average length of stay increasing from 14 days in 2006 to 17 days in 2007. Forty four percent of the juveniles held in the facility were charged with a felony offense.

The Butler County Juvenile Detention Center utilized community resources to provide beneficial programming to the residents of the facility. The facility contracts with the Hamilton City School District to provide for the resident's educational needs. Resources such as Narcotics Anonymous, Car Teens, Cincinnati Zoo, Butler County Mental Health Board, Mercy Crisis Center, and the Rape Crisis Center volunteered their time to provide the residents of the facility with meaningful programming. Local churches such as Courts of Praise, Church on Fire, King's Kids, Princeton Pike Church of God, Solid Rock Church of God, Hamilton Vineyard, Emmanuel Lutheran, and Stratford Heights volunteered their time providing religious services for the residents of the facility.

JUVENILE REHABILITATION CENTER OVERVIEW

The Butler County Juvenile Rehabilitation Center (BCJRC) is a 30 bed secure facility housing male felony offenders from southwestern Ohio. Built as the first juvenile Community Correctional Facility (CCF) in Ohio, the facility was created to house offenders in a secure setting, while providing programming designed to help youth become productive citizens.

Youth incarcerated in the facility are provided a variety of programs, both individual and group, designed to meet their unique needs. Programming includes cognitive behavioral interventions and motivating and teaching residents how to make important life changes. Specialized programs such as sex offender and substance abuse treatment are also provided for identified youth. While incarcerated, parents of our residents are involved in Parent Education groups and ongoing family sessions. These services have been created to aid in the transition of youth back to their home community.

While the main focus of the facility is to change the criminal thinking and behavior of our residents, academic improvement is also targeted. Intake testing and educational history allow facility teachers to provide an individualized instruction plan (IIP) for each resident. Residents coming to the facility with an individual education plan (IEP) shall work closely with a special education to meet their unique educational needs. Comprehensive assessment coupled with targeted instruction has resulted in significant academic improvement for many of our residents. One example of this improvement is 90% of the residents experienced academic gains within the year.

On September 17-19, 2007, the American Correctional Association, (ACA), completed an initial audit of the program. The facility was found to be 100% compliant with ACA standards and received accreditation in January 2008.

Within the year, there have been several significant statistical changes. The average length of stay remained 162 days in both 2007 and 2006. In addition, the total number of admissions increased from a 2006 total of 80 to a 2007 total of 83. Finally, 78 total youth were released in the year, with 58 (74%) being successful completions.

In closing, the good work of this facility would not be possible if it were not for the involvement of our community partners. Organizations which deserve special thanks are the Alcohol and Chemical Abuse Council, Hamilton Christian Center, Catholic Social Services, Butler County Mental Retardation & Developmental Disabilities (MRDD), Miami University, along with the countless number of volunteers and mentors who have reached out to our residents. Finally, special recognition should be given to our staff who tirelessly work with our youth, helping them help themselves.

JUVENILE TRAFFIC OVERVIEW

In 2007, the Juvenile Court experienced a significant decline in the numbers of juveniles cited to court for traffic offenses. There was a decrease in nearly all categories of offenses and an overall decrease of nearly 20%. Those facts are somewhat puzzling given the continued population growth in Butler County. One can only speculate as to the reasons for the decline.

Several factors likely contributed to the decline in juvenile traffic offenses. During 2007, the Ohio legislature did enact a more restrictive graduated license law. In addition, rising gasoline prices may be impinging upon the ability of juveniles to operate motor vehicles except in essential circumstances. Finally, this court has continued to strictly enforce traffic laws, issuing suspensions in approximately 46% of adjudicated cases. The end result, regardless of the cause, is a welcome one. Juveniles appear to be committing fewer traffic offenses.

SUPPORT SERVICES OVERVIEW

The Support Services Unit is comprised of a team of case managers who provide critical coordination of information and services to the court system, the public, the legal community, law enforcements agencies, volunteer agencies, as well as social service agencies within and outside of Butler County. The array of cases handled by the case managers include abuse, neglect, and dependency actions, adult criminal actions, custody/visitation actions, and child support matters.

A total of 638 cases involving 1,286 allegations of abuse (246), neglect (409), and dependency (631) were filed by Butler County Children Services and private citizens in 2007. Additionally, 90 motions for permanent custody were filed during the year.

A total of 780 cases comprised of 889 adult criminal offenses were filed by police departments, truant officers, or private citizens in 2007. Of those, 742 were parents charged with Failure to Send A Child to School or Contributing to the Delinquency of a Minor. In 2000, a specialized truancy docket was created to focus on school truancy issues. Parents or custodians may be fined up to \$1,000.00 or sentenced to six months in the Butler County Jail if found guilty of this criminal offense.

Juvenile Court has also had an increase in the number of custody and visitation cases filed. In 2007, a trained mediator was hired to mediate disputes on custody and visitation cases that were set for trial. Ninety-seven mediations were completed.

The Support Services Unit also facilitates the Family Drug Court Program (FDCP). The mission of the Butler County Juvenile Court-Family Drug Court is to expedite the reunification of children with their parent(s) in abuse, neglect, and dependency case whereupon parent(s) have identified drug and/or alcohol dependency problems and have complied with court orders, or to expedite permanency in the children's cases whereupon the parent(s) refuse to comply with court orders.

The Family Drug Court Program is a voluntary program that offers a new opportunity to parents who are involved with Juvenile Court because the Children's Service Agency has filed a complaint of abuse, neglect, or dependency. The FDCP provides parents with a more intensive focus on treatment and monitoring. The parents are provided immediate access to needed services as well as interaction with a Judicial Hearing Officer and a team of professionals. The parents attend weekly, bi-weekly, or monthly court hearings and compliance, or non-compliance is reviewed by the Team and immediate incentives and sanctions are given. When parents are successful, the family is reunified quicker.

In 2007, 15 individuals were accepted to the program. Seven successfully completed. Currently there are nine participants. The program has been able to place 20 children in a permanent placement as a result of their parents participation in drug court. Seventeen children were placed back in the legal custody of the parent(s).

CLERK SERVICES OVERVIEW

The role of the Clerk Services Unit is to aid the Magistrates and Judges in the courtrooms, aid the Support Services Unit, the Probation Department, outside agencies, and the public in processing the paperwork on new and existing cases. The objective of the Clerk Services Unit is to process all filings and paperwork in an effective and timely manner to ensure that all the Juvenile Court's operations are efficient. In addition, the Deputy Clerks are responsible for the scheduling of official cases before the Judges and the Magistrates, and the monitoring of payments for court costs, fines, restitution, and drug screens.

Juvenile Court has been working in conjunction with Domestic Relations Court scheduling and hearing support cases since June of 2005. This collaboration has assisted the public in expediting the initial hearing date and timeframe in which matters are addressed. During the 2007 calendar year, Juvenile Court assigned 771 cases to Domestic Relations Court which resulted in 4,728 hearings for their court.

With all case types being computerized, Juvenile Court has the ability to now gather more in depth statistical data which has been unavailable in years past. During 2007 the Juvenile Clerk's Office processed a total of 9,736 cases which resulted in an additional 11,051 filings of motions, objections and/or violations for a total of 20,787 filings. In response to those filings, Juvenile Court held 31,295 hearings this past year. Ohio Rules of Juvenile Procedure 15, 16 and 17 require the Clerk's Office, when requested, to issue service for the parties to ensure they are notified of their upcoming court hearing. In the year 2007, the Clerk's Office issued 43,778 service documents which include: summons, subpoenas, notice of hearing and publication as well as 1,788 warrants.

By more accurately tracking the business of the Court, the Juvenile Clerk's Office will be working towards greater efficiency in case management to provide better service to partner agencies, attorneys, and the public.

CHILD SUPPORT CASE STATISTICS

	2006	2007
PARENTAGE COMPLAINTS The legal determination of a "parent and child relationship" that exists between a child and the child's natural or adoptive parents. The "parent and child relationship" includes the mother and child relationship and the father and child relationship.	260	180
SUPPORT COMPLAINTS An order for the support of a child that provides for monetary support, whether current or in arrears, health care, or reimbursements, and may include related costs and fees, interest, income withholding requirements, attorney fees, and other relief.	821	706
UIFSA COMPLAINTS The "Uniform Interstate Family Support Act (UIFSA)" is the standard set of requirements for the processing of interstate cases in the United States.	83	91
OBJECTIONS TO ADMINISTRATIVE ORDERS	289	285
TOTAL	1453	1262
ADMINISTRATIVE ORDERS ADOPTED BY THE COURT Orders issued by a governmental entity other than a court. Such orders are enforceable in a manner similar to orders issued by a court.	544	396
WAGE ASSIGNMENTS Orders of the Court directing an employer to deduct from an employees wages ordered child support and submit payment of the support directly to the State.	150	123

INFORMATION SERVICES OVERVIEW

In 2007, Butler County Juvenile Court Information Services staff supported 200 users by providing training, direct desktop, and network support. In addition, the staff maintained the Court servers and handled the processing of the daily tape backups ensuring consistent and secure storage of all electronic Court information. The Information Services staff were also instrumental in the creation of standard and ad hoc statistical reports used by the Court for decision making and planning. Finally, the staff processed the monthly Supreme Court report that is sent to the Ohio Supreme Court. This report tracks the flow of cases through the Juvenile Court and reports on their status.

The Juvenile Court Information Services Department continued to be responsible for the ordering and maintaining of all personal computers, printers, scanners and servers. In 2007 staff replaced the following equipment: 54 PC's that ranged in age from 6.17 to 8.33 years old, 1 Laptop that was 6.33 years old, 8 printers that were approximately 11 years old and two servers that were 6.33 and 7.42 years old. A new more efficient rack system was installed and a new backup server and tape library were added as the Court had exceeded capacity on it's old equipment. The new PC equipment should improve productivity as the old equipment had become outdated and should result in energy savings as the newer computer architectures are more energy efficient along with the use of LCD monitors in place of the older CRT based units. Additionally, all user accounts were created, modified, and maintained for use by the employees who work for the Juvenile Justice Center which includes the Juvenile Detention and Juvenile Rehabilitation Centers which are 24 hour a day, 7 day a week facilities. All of this would not be possible without the assistance of the Butler County Information Services Department which has designated the services of a PC Technician to the Juvenile Justice Center.

The Court continued to utilize the Kronos Timekeeping System. This system managed the collection and distribution of employee hours in every area of the Juvenile Justice Center. The system captured arrival times and departure times, transfers from one department to another, and changes in shift or pay categories for all staff members.

In order to maintain consistency in court processes and to promote the sharing of information among staff the Court institutionalized a continual education program for Court personnel that was started in 2006. The Courtroom Clerks, Hearing Officers and Probation staff received additional training on the case management system and reviewed the proper procedures for processing hearings through the software with biannual training days set aside each year.

The Juvenile Court Information Services Department is looking to capture and package greater amounts of raw data as each year progresses. With more and more information being entered into the case management system there exists the opportunity to utilize that data for greater efficiency and planning.

ON BEHALF OF THE JUVENILE JUSTICE CENTER

We would like to express our appreciation to law enforcement agencies, other county departments, schools, and various community organizations for their continued support in our efforts to provide meaningful service to the community.

DAVID J. NIEHAUS
ADMINISTRATIVE JUDGE
